Features & Benefits

- Research from BECTA shows that "children are more successful in school if their parents are more involved in their education"
- MyChildAtSchool.com technology enables parents to access their child's information through a portal, promoting communication between both schools and parents, and parents and their children
- All the data is in real-time so a parent can instantly see whether his/her child is in school now
- Parents can ensure that their child is in school, giving them piece of mind
- Any potential truancy problems can be detected early and prevented
- Acts as a deterrent to pupils at risk of playing truant
- An excellent means for schools to communicate useful information to parents, such as upcoming school events on the school calendar
- Parents can be regularly prompted to review their contact details. Parents can update their personal contact details online so that the school always has their most up to date information.
- All the information is accessed securely using unique user name and passwords
- Schools can choose which information they wish to present to parents e.g. Behaviour Events, Assessment Reports, etc.

HIGHFIELD HUMANITIES COLLEGE

The online portal enabling parents/carers the opportunity to view their child's performance at school.

The facility allows the child's attendance, grade, reports and behaviour to be accessed on a real time basis whenever the parent/carer wants.

MyChildAtSchool is an online portal for parents that enables them to view their child's performance at school in real-time via a web browser. The facility allows the child's attendance, grades and behaviour to all be accessed whenever the parent/carer wants.

As well as pupil performance data, the portal also provides general information about school, such as the school calendar and any important announcements.

Parents no longer need to wait for the termly report to obtain information about their child, they can check whenever they want for up-to-date information. Parents will therefore take a more pro-active role in the development of their child's education.

What is MyChildAtSchool?

MyChildAtSchool is an exciting new development that is aimed at parents of children at school who have access to the Internet. Our aim is to provide parents the opportunity to forge a closer collaboration with respect to their children's school lives.

MyChildAtSchool.com provides:

- Access to up to the minute grades, attendance and behavioural data
- Communication facilities to improve contact between parents and schools
- A platform for schools to present themselves to the wider community

Is MyChildAtSchool secure?

Security of information is of paramount importance to us. MyChildAtSchool.com uses individual password-protected accounts and 128-bit Secure Socket Layer* financial transaction-grade technology to ensure the privacy of attendance, grades and class results transmitted online.
